The Fort

Can a pirate and a prince learn to share?

#1 – FORT FEATURES:

In *The Fort*, the two characters each see the fort as something different. To the prince, it looks like a castle complete with turrets. To the pirate, it looks like a ship ready to set sail in search of treasure. What does the fort look like to you?

Add to this picture to show how you see the fort and how you would use it.

#2 – A DIFFERENT COMPROMISE:

At the end of the story the prince and the pirate compromise. They decide to use the fort for an adventure can go on together. How else could they have used it?

Rewrite the ending to *The Fort*.

#3 – BUILD YOUR OWN FORT:

- If you do not have a fort in the woods like the prince and the pirate, build one!
- Will you build your fort inside or outside?
- What materials will you use?
- What adventures will the fort take you on?
- What role will you play?
- Who will you invite to share the fort with you? What role will they play?
